**Reserves**

**POLICY**

A financially sustainable County government provides an optimal mix and level of services to citizens within available means while proactively taking measures to preserve the ability to continue providing value in the long term. Reserves are established to accomplish this goal.

The objective of the reserves policy is to ensure adequate working capital is available for cash flow and contingency purposes, and as a source of funding the County’s long-term capital plan, while maintaining reasonable tax rates and user fees.

**DEFINITIONS**

*Reserves* A reserve is an allocation of accumulated net revenue. It has no reference to any specific assets and does not require the physical segregation of money or assets. Reserves are part of the revenue fund and, therefore, do not earn interest on their own, as is the case of reserve funds. Any earnings derived from investment of reserves’ money are reported as revenue fund earnings.

*Reserve Funds* A reserve fund differs from a reserve in that the reserve fund assets are segregated and restricted to meet the purpose of the reserve fund. All earnings derived from such investments must form part of the reserve fund. There are two types of reserve funds: obligatory reserve funds and discretionary reserve funds.

*Obligatory Reserve Funds* An obligatory reserve fund, as per statute or legislation requirements, is comprised of funds received for special purposes and are segregated from the general revenues of the County. Obligatory reserve funds are created solely for the purpose prescribed for them.

*Discretionary Reserve Funds* A discretionary reserve fund is not segregated from the general revenues of the County, based on Council direction, to finance a future expenditure or to provide for a specific contingent liability so that the funds are available as required.

## PROCEDURES

### 1.0 Authority

#### 1.1 Municipal Act, 2001

- 1.1.1 Subsection 289(3) – in preparing the budget, an upper tier municipality may provide for such reserves as the upper tier municipality deems necessary.
- 1.1.2 Section 293 – specifies that the Minister may make regulations requiring a municipality to establish a reserve fund designated for prescribed liabilities, defining “liabilities”, requiring a municipality to make payments into the reserve fund, prohibiting the municipality from changing the purpose for which the reserve fund is designated; and prescribing the conditions under which the municipality may change the designation of all or any part of the reserve fund, and borrow from the reserve fund.
- 1.1.3 Section 417 – allows a municipality to provide in its budget for the establishment or maintenance of a reserve fund for any purpose for which it has authority to spend money and that a municipality may by by-law provide that the money raised for a reserve fund may be spent or applied to a purpose other than that for which the fund was established.

### 2.0 Principles and Objectives

- 2.1 The County recognizes that the strategic use of reserves and reserve funds is an essential part of long term corporate financial planning (Policy 6.16 Long Term Financial Sustainability Plan). In addition, reserves and reserve funds shall receive priority consideration for the distribution of surplus funds and non-recurring revenues
- 2.2 Reserves represent an important tool in debt management as it is a source of financing for larger projects. Capital budgets can vary from year-to-year, which can create a funding need that may be best financed over time (Policy 6.19 Debt Management Policy).
- 2.2 Reserves and reserve funds may be established for any purpose deemed necessary by resolution of County Council, or if required in accordance with provincial statute. Typical uses of reserves are for contingencies, stabilization purposes and capital financing.

- 2.3 Reserves and reserve funds may be closed only by resolution of Council.
- 2.4 The County Treasurer is authorized to process transfers to and from reserves and reserve funds in compliance with the sources and uses listed in Appendix “A”, which forms an integral part of this policy, and in accordance with annual operating and capital budgets.
- 2.5 Reserve transfers not part of the annual operating or capital budget or set out specifically in this policy must be approved by County Council.
- 2.6 Target balances, funding sources and uses of reserves and reserve funds are set out in Appendix “A”.

**4.0 Reserves and Reserve Fund Sustainability Strategies**

Reserve and reserve fund preservation and sustainability has become more prevalent over time with the reduction of transfer payments from other levels of government to support local services. Municipalities are facing financial challenges to meet service level expectations and must seek other means of sustaining an appropriate level of reserves through increased revenues. The following strategies are designed to specific revenue streams to reserves:

4.1 **Interest Allocations** – the following reserves, not represented by a reserve fund with segregated assets, shall receive, or be charged, an allocation of interest in the year, based on the County’s average monthly interest rate earned on its current bank deposit balances, to each of the reserves calculated on their average opening and ending balances for the year.

- 3.5.1 Insurance
- 3.5.2 Facilities
- 3.5.3 Roads
- 3.5.4 Bridges
- 3.5.5 Fleet
- 3.5.6 Water – Townships
- 3.5.7 Water – Ingersoll
- 3.5.8 Water – Tillsonburg
- 3.5.9 Water – Woodstock
- 3.5.10 Wastewater - Embro
- 3.5.11 Wastewater – Drumbo
- 3.5.12 Wastewater – Ingersoll
- 3.5.13 Wastewater - Innerkip
- 3.5.14 Wastewater – Mt. Elgin
- 3.5.15 Wastewater – Norwich
- 3.5.16 Wastewater – Plattsville
- 3.5.17 Wastewater – Tavistock
- 3.5.18 Wastewater – Thamesford
- 3.5.19 Wastewater – Tillsonburg
- 3.5.20 Wastewater – Woodstock
