

RESIDENT NOTICE

April 14, 2026

Sanitary trunk sewer replacement at Oxford Road 59 and Fairway Road

Sanitary trunk sewer replacement will take place within a utility easement that runs through Sally Creek Golf Club

About this project

Oxford County has awarded a contract to Kieswetter Excavating for sanitary trunk sewer replacement within Sally Creek Golf Club lands near the intersection of Oxford Road 59 and Fairway Road in the City of Woodstock.

Construction work is tentatively scheduled to begin the week of April 13 and is expected to be completed by June 2026.

Please note that construction schedules are weather dependent and may change due to weather, site conditions, contractor availability and other factors.

Construction

During construction, there will be intermittent construction vehicle access through Sally Creek Golf Club from Golfview Drive. Oxford Road 59, Fairway Road and Golfview Drive remain open for local traffic and access to businesses and emergency services. Access for patrons at Sally Creek Golf Club is expected to be unaffected.

Work includes:

- sanitary trunk sewer replacement and restoration;
- installation of a sanitary by-pass system;
- clearing, grubbing and tree removals; and,
- environmental protection measures.

How will the project impact me?

Traffic control and access to property

The contractor will be required to maintain access as best as possible to all properties. Some short-term interruptions and delays can be expected during this work. Emergency services and buses will be notified of all road closures and lane restrictions.

Equipment vibrations

Construction equipment can cause vibrations during construction. Please ensure you protect any valuables susceptible to damage.

Lawn restoration

Following construction, the contractor will place new sod on affected properties and water it as needed for 30 days after placement. After the 30 days, the sod maintenance and watering is the responsibility of the property owner, as it was prior to construction.

Safety

Please help keep our community and workers safe: respect work zones, obey traffic signs, and maintain a safe distance from equipment and vehicles entering and leaving the site.
